

## **DreamZone - You will never see me cry**

Look at me and you will see

You will break my heart.

My pain inside I will hide.

I just try a new start.

I am sure I won't see you again.

I will change my life.

You left me lonely in the rain.

Don't worry I will survive.

Refrain:        I know you will go away,  
                      And I will forget you one day.  
                      You will never see me cry.  
                      Say Good Bye.
